CAREER OBJECTIVE

Recent Information Technology graduate with strong analytical, Programming, and Problem-solving skills. Seeking an entry level opportunity to contribute to organizational success while expanding my technical expertise and professional growth in a collaborative environment.

EDUCATION QUALIFICATION

DVR & Dr. HS MIC College of Technology	2022 -2026
B. Tech – Information Technology	CGPA: 9.10/10
Sri Padmavathi Junior College	2020 – 2022
Intermediate (MPC)	CGPA: 9.1/10
Z.P. High School, Kamepalli	2019 – 2020
SSC	CGPA:9.8/10

TECHNICAL SKILLS

Languages	: Python, SQL
Web Technologies	: HTML, CSS, JavaScript
Technologies	: REST API's, CRUD Operations
Tools	: VS Code, Git & GitHub, n8n
Frameworks	: Django, Flask
Testing	: SDLC, STLC, Manual Testing, Test Case Preparation, Defect Tracking

PROJECTS

Automation – AI Email Negotiation System	JavaScript, Python, Django, Flask, REST APIs, n8n
- Built an AI-powered system for automated email classification and response generation using LLM concepts - Merged REST APIs to process and respond to incoming email data dynamically - Planned workflow automation pipelines using n8n for intelligent email handling	
Smart Blood Donation Management System	HTML, CSS, JavaScript, Node.js, MongoDB, AWS
- Developed a Full-Stack web Application to Streamline blood donor registration blood inventory management, and blood request processing. - Designed and integrated MongoDB database for efficient storage, retrieval, and management of donor records. - Implemented data Validation, secure form handling, and optimized record management to improve system reliability and user experience.	
RS FOODS – Food Ordering Web Application	HTML5, CSS, JavaScript, Bootstrap, Git & Github
- Developed a responsive food ordering web application with recipe discovery using API integration and dynamic content rendering. - Implemented Search, cuisine filtering, cart management, quantity controls, and automated price calculation - Utilized local storage for data persistence & designed a mobile-friendly user interface to enhance user experience	

INTERSHIPS

Cyber Job Simulation – Deloitte (Forage)

- Applied cybersecurity concepts through risk analysis, threat identification, and real-world business case simulations.
- Analyzed security risks and explored incident response approaches in simulated business scenarios.
- Gained hands-on exposure to security frameworks, vulnerability assessment, and cyber risk mitigation.

Python Virtual Full Stack Internship

- Completed a Python Full Stack Virtual Internship focused on developing web applications using Python, Django, REST APIs, and database integration.

PROFESSIONAL - CERTIFICATIONS & ACHIEVEMENTS

- Gold Level – Accenture Go for Gold Contest
- MIC Excellence Award – DVR & Dr. HS MIC College of Technology
- NPTEL Certified – Introduction to Internet of Things (IOT)
